MINUTES OF A REGULAR MEETING OF THE BOARD OF DIRECTORS OF THE TRIVIEW METROPOLITAN DISTRICT AND THE BOARD OF DIRECTORS OF THE WATER ACTIVITY ENTERPRISE HELD

July 20, 2022

A meeting of the Board of Directors of the Triview Metropolitan District was held on Wednesday, July 20, 2022, beginning at 5:30 p.m. The meeting was conducted via Zoom and in person. This meeting was open to the public. The meeting was called to order at 5:30 p.m.

ATTENDANCE

In attendance were Directors:

President Mark Melville, present
Vice President Marco Fiorito, present
Director James Barnhart, present
Director James Otis, present
Director Anthony Sexton, present

Also, in attendance were on roll call:

James McGrady, District Manager
Joyce Levad, District Administrator
George Rowley, District Legal Counsel
Chris Cummins, District Water Attorney
Shawn Sexton, Water Superintendent
Rob Lewis, Distribution and Collection Manager
Matt Rayno, Parks, and Open Space Superintendent
Marlene Brown, Our Community News

ADMINISTRATIVE MATTERS

<u>Agenda</u> – Mr. McGrady distributed, for the Board's approval, the proposed agenda. A motion was made by Director Fiorito to approve the agenda. Upon a second by Director Otis. A vote was taken, and the motion carried unanimously.

DISCLOSURE OF CONFLICTS IF ANY:

None.

PUBLIC COMMENT:

None.

ELECTION OF OFFICERS:

A motion was made by Director Otis to nominate the Slate of Mark Melville as President, James Barnhart as Treasurer and Anthony Sexton as Vice President. The Motion was duly seconded by Director Fiorito. A vote was taken, and the motion carried unanimously.

Consent Agenda

- a) Prior Meeting Minutes
 - June 9, 2022, Special Board Meeting
 - June 23, 2022, Regular Board Meeting
- b) June 2022, Billing Summary Rate Code Report
- c) Taps for June 2022
- d) Tax Transfer from Monument

A motion was made by Director Otis to approve the consent agenda with the two changes, as noted, on the minutes. The motion was duly seconded by Director Fiorito. A vote was taken, and the motion carried unanimously.

OPERATIONS REPORT

District Manager Report (enclosure)

- Mr. McGrady stated Triview did get a draft agreement contract from CSU for the Convey, Treat and Delivery project on the Northern Delivery System.
- The submittal of the 1041 document, for the NDS, to El Paso County will happen by the end of July.

- The second 1041 permit is getting ready to be submitted to Pueblo County. This permit is for Stonewall Springs Reservoir.
- The first 1041 permit that the District prepared, for Excess Capacity Storage in Pueblo Reservoir, has been accepted by the Pueblo County Planning Department. The District is waiting to hear when the presentation to the Pueblo County Commissioners will occur.
- The South Reservoir dewatering channel has been filled in. This in preparation to install all the HDPE pipe.
- Work is being done on the Arkansas Valley Irrigation Company revegetation plan; this includes everything west of Rodeo Road.
- A Resolution on the design of the NMCI is due to be approved by the Board.
 The goal is to have a meeting on August 2, 2022, with CSU to discuss cost share.

Public Works and Parks and Open Space Updates (Matt Rayno)

- Mr. Rayno stated the Landscape enhancement project on Leather Chaps and Baptist Road is complete.
- All irrigation smart controllers are online with 4G upgrade.
- There has been a lot of weed growth in the district. The crews are on top of getting these removed.
- The crew is starting to build the A Yard retaining wall.

Utilities Department Update (Shawn Sexton)

- Pumpage for month of June 2022 was 49.094 Mg
- All wells are available, currently using A&, D7, A9, D9, A4 and D4.
- A, B and C plants are running normally.
- Sodium Hypochlorite was filled on July 8th, deliveries are proceeding with no issues.

BOARD MEMBER UPDATES AND COMMENTS:

Mr. McGrady wanted to know if there would be a quorum for the next Board meeting in order to amend the 2021 budget. It was confirmed there will be a quorum.

There was also a discussion about the agenda for the Work Session meeting on July 28, 2022, at Flying Horse.

5

ACTION ITEMS:

a) Review and Consider approval of Resolution 2022-06. A Resolution of the Triview Metropolitan District Board of Directors Concerning participation in the design stage of the Northern Monument Creek Interceptor aka, NMCI.

A motion was made by Director Fiorito to approve Resolution 2022-06 concerning participation in the design stage of the NMCI. The motion was duly seconded by Director Otis. A vote was taken, and the motion carried unanimously.

b) Review and Consider assignment of a landscape maintenance contract to the Triview Metropolitan District for Landscape Maintenance Services for the Forest Lakes Metropolitan District.

It was decided, by the Board, to discuss this contract in Executive Session. The decision would be voted on after the Board comes out of Executive Session.

c) Review and Consider adoption of Resolution 2022-07, a Resolution of the Triview Metropolitan District Board of Directors Adopting a Code of Conduct and a Code of Ethics.

A motion was made by Director Otis to table Resolution 2022-07 pending additional revisions from legal counsel. The motion was duly seconded by Director Fiorito. A vote was taken, and the motion carried unanimously.

LEGAL MATTERS:

None.

FINANCIALS AND PAYABLES

Approve and Ratify Checks over \$5,000 – The Board reviewed the payment of claims over \$5,000. A motion to approve the checks greater than \$5,000 was made by Director Barnhart. The motion was duly seconded by Director Fiorito. A vote was taken, and the motion carried unanimously.

Monthly Cash Position and Unaudited Financial Statements – The Board reviewed the June 2022 unaudited Financial Statements as presented. A motion to approve the District's June 2022 Financial Statements was made by Director Otis. The motion was duly seconded by Director Fiorito. A vote was taken, and the motion carried unanimously.

PUBLIC RELATIONS:

Triview continues to inform the public on what is happening in the District through the newsletter.

BOARD BREAK

A motion was made by Director Melville for the Board to take a 10 minute break before entering Executive Session.

EXECUTIVE SESSION:

Executive Session pursuant to C.R.S. Section 24-6-402(4) (b), (e) (f) Acquisitions, Legal Advice, Negotiations, and Personnel regarding the following general topics, if needed.

- · Negotiation regarding Northern Delivery System.
- Joint Triview Board/Monument Town Council Meeting.
- Summary of Water Litigation Matters 2022-2024.
- To consider the landscaping contract to the Triview Metropolitan District for services to the Forest Lakes Metropolitan District.

A motion was made by Director Fiorito for the Board to enter Executive Session pursuant to C.R.S. Section 24-6-402(4) (b), (e), (f) Legal Advice and Negotiations. The motion was duly seconded by Director Otis. A vote was taken, and the motion carried unanimously. Executive Session was entered into at 8:00 p.m.

The Board came out of Executive Session for approval of the landscape contract with Forest Lakes Metropolitan District.

A motion was made by Director Fiorito to conditionally approve the landscape contract with Forest Lakes Metropolitan District, on the condition that the monthly cost is accurately covered until April 30, 2023, and that a fixed cost contract be drafted, by counsel, and authorize the District Manager to sign based on the conditions previously stated. The motion was duly seconded by Director Otis. A vote was taken, and the motion carried unanimously

ADJOURN

There being no further business to come before the Board, a motion to adjourn the meeting was made by Director Fiorito The motion was duly seconded by Director Otis. A vote was taken, and the motion carried unanimously. The meeting was adjourned at 9:36 p.m.

Respectfully Submitted

James C. McGrady Secretary for the Meeting

NOTICE TO AMEND 2021 BUDGET TRIVIEW METROPOLITAN DISTRICT

NOTICE IS HEREBY GIVEN that the Board of Directors of the Triview Metropolitan

District, of the County of El Paso, State of Colorado, will consider amending the District's 2021

Budget at a regular meeting to be held on Thursday, August 18, 2022 at 5:30 p.m. at the District's

offices - 16055 Old Forest Point, Suite 302, Monument, Colorado. A copy of the proposed Budget

Amendment is on file at the offices of the District located at 16055 Old Forest Point, Suite 302,

Monument, Colorado and is available for public inspection. Any interested elector of Triview

Metropolitan District may file any objections to the Resolution at any time prior to its adoption by

the Board of Directors of the Triview Metropolitan District at the above-stated meeting. The

meeting is open to the public.

BY ORDER OF THE BOARD OF DIRECTORS OF

THE TRIVIEW METROPOLITAN DISTRICT

James Barnhart, Secretary/Treasurer

TRIVIEW METROPOLITAN DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES Year Ended December 31, 2021

A reconciliation reflecting the differences between the governmental funds net change in fund balances and change in net position reported for governmental activities in the Statement of Activities as follows:

Net change in fund balances - Total governmental funds	_\$_	4,238,222
Governmental funds report capital outlays as expenditures. However, in the statement of activities the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays for the period.		797,911
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		493,176
Change in net position - Governmental activities	s	5,529,309

NOTES TO BASIC FINANCIAL STATEMENT

TRIVIEW METROPOLITAN DISTRICT

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Triview Metropolitan District (the "District") is a quasi-municipal political subdivision of the State of Colorado organized to develop and provide certain services to the residents of the District. The District was formed by order of the District Court for the County of El Paso, Colorado, entered in Civil Action No. 85 CV 0893 on May 13, 1985, following the favorable outcome of an organizational election held on May 10, 1985. The District, as a metropolitan district, derives its power from state statutes. Among the express statutory powers of the District are the powers of taxation and eminent domain, and the power to borrow money and issue both general obligation bonds and revenue bonds. The District has purchased water rights, and has constructed a water distribution system, a sanitary and storm sewer collection system, roadways, signs and other improvements.

The District's financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). A summary of the significant accounting policies used in the preparation of these financial statements follows.

Reporting Entity — The District has no component units for which either discrete or blended presentation is required. The inclusion or exclusion of component units is based on a determination of the elected official's financial accountability to their constituents, and whether the financial reporting entity follows the same accountability. Further, the financial statements of the reporting entity should enable the reader to distinguish between the primary government (including its blended component units, which are in substance, part of the primary government) and discretely presented component units. The criteria used for determining whether an entity should be included, either blended or discretely presented, includes but is not limited to fiscal dependency, imposition of will, legal standing, and the primary recipient of services.

Government-Wide and Fund Financial Statements — The government-wide financial statements (i.e. the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between governmental and business-type activities of the District. Governmental activities are normally supported by taxes and intergovernmental revenues. Business-type activities are financed to a significant extent by fees and charges.

The statement of activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. *Program revenues* include 1) fees and charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues, including all taxes, are reported as *general revenues*.

Measurement Focus, Basis of Accounting and Financial Statement Presentation — The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements.

TRIVIEW METROPOLITAN DISTRICT

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. On an accrual basis, property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue in the fiscal year in which all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the period or soon enough thereafter to pay liabilities of the current fiscal period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The District considers property taxes as available if they are collected within 30 days after yearend. Property taxes are recognized as revenue in the fiscal period for which they are levied, providing the available criteria are met.

Those revenues susceptible to accrual are property taxes, sales taxes, interest revenue and charges for services. Specific ownership taxes collected and held by the county at year-end on behalf of the District are also recognized as revenue.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the accrual criteria are met. Expenditure-driven grants recognize revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The accounts of the District are organized and operated on the basis of funds. A fund is an independent fiscal accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds maintained is consistent with legal and managerial requirements.

The District reports the following major governmental fund:

General Fund – The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Additionally, the District reports the following major proprietary fund:

Enterprise Fund – The enterprise fund is used to account for those operations financed and operated in a manner similar to private business or where the board has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The District has one enterprise fund-the Water, Wastewater and Reuse Fund. The intent of the District is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

TRIVIEW METROPOLITAN DISTRICT NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

Amounts reported as *program revenues* include 1) charges to customers for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges for services. Operating expenses for enterprise funds include cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to apply restricted resources first, then unrestricted resources as they are needed.

Receivables — All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Prepaid Expenses — Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Due To and From Other Funds — Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. In the fund financial statements, these receivables and payable are classified as "due from other funds" or "due to other funds". In the government-wide financial statements, all internal balances have been substantially eliminated.

Restricted Cash and Investments — The use of certain cash and investments of the District is restricted. These cash and investment items are classified as restricted assets on the balance sheet because they are maintained in separate accounts and their use is limited by debt agreements.

Investments – Investments are stated at fair value. Fair value is the amount the District can reasonably expect to receive to sell an investment in an orderly transaction between market participants. See Note 4 for further information on the fair values of investments.

Capital Assets — Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, traffic, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset, or materially extend asset lives, are not capitalized. Improvements are capitalized and are depreciated over the remaining useful lives of the related capital assets, as applicable.

TRIVIEW METROPOLITAN DISTRICT NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

Buildings, improvements, vehicles, and equipment of the government are depreciated using the straight-line method over the following estimated useful lives:

Roads and streets	2 – 40 years
Wells	20 years
Water storage tank	40 years
Wastewater treatment facility	40 years
Water distribution system and treatment facility	40 years
Equipment	3-7 years

When depreciable property is acquired, depreciation is included in expense for the year of acquisition for the number of months during the year the asset was in service. When depreciable property is retired or otherwise disposed of, depreciation is included in expense for the number of months in service during the year of retirement and the related costs and accumulated depreciation are removed from the accounts with any gain or loss reflected in the statement of revenue, expenses and changes in fund net assets.

Accumulated Employee Benefit Amounts — Accumulated unpaid vacation, sick pay, and other employee benefit amounts are not material. Therefore, a liability of these benefits has not been reflected in these financial statements.

Long-Term Liabilities — In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt using the straight-line method. Bonds payable are reported net of the applicable premium or discount. Issue costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balance Classification — The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications available to be used in the governmental fund financial statements are as follows:

Non-spendable – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted - This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed — This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the Board of Directors. These amounts cannot be used for any other purpose unless the Board of Directors removes or changes the specified use by taking the same type of action that was used when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned – This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to management through the budgetary process. This classification also includes the remaining positive fund balance for any governmental funds except for the General Fund.

Unassigned – This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of Assigned fund balance amounts.

The District would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

Statement of Cash Flows — For purposes of the Statement of Cash Flows, the District's cash and cash equivalents are considered to be cash on hand, demand deposits, government pools, and short-term investments with original maturities of three months or less from the date of acquisition, including restricted cash and cash equivalents. Funds held in escrow are excluded from the District's definition of cash and cash equivalents.

Estimates — The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events — The District has evaluated subsequent events for recognition or disclosure through the date of the Independent Auditors' Report, which is the date of issuance of the financial statements.

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the general fund balance sheet and the government-wide statement of net position:

The general fund balance sheet includes reconciliation between fund balance-governmental fund and net position-governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "capital assets used in governmental

activities are not financial resources and, therefore, are not reported in the funds". The details of this difference are as follows:

Capital assets	\$ 29,665,445
Accumulated depreciation	(9,285,999)

Net adjustment to fund balance – governmental fund to arrive at net position – governmental activities

\$ 20,379,446

Explanation of certain differences between the governmental fund statement of revenues, expenditures and change in fund balance and the government-wide statement of activities:

The governmental fund statement of revenues, expenditures, and change in fund balance includes a reconciliation of net changes in fund balance-governmental fund and change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that governmental funds report outlays for capital assets as expenditures. In contrast in the Statement of Activities the cost of capital assets is allocated over their estimated useful lives as depreciation expense. The details of this difference are as follows:

Depreciation Capital outlays	\$ (792,807) 1,590,718
Net adjustment to net change in fund balance – governmental fund to arrive at change in net position – governmental activities	<u>\$</u> 2,553,852

Another element of the reconciliation states that "The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities". The details of this difference are as follows:

Amortization of advance refunding difference	\$	(196,805)
Amortization of discount/premium		30,613
Repayment of bonds		655,000
Change in accrued interest	_	4,368
Net adjustment to net change in fund balance - governmental fund		
to arrive at change in net position of governmental activities	\$_	493.176

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budget Information — The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. In the fall, the District Manager submits to the Board of Directors, a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted by the District to obtain taxpayer comments.

- 3. Prior to December 15, the budget is legally approved.
- 4. Any revisions that alter the total expenditures of any fund must be approved by the Board of Directors.
- 5. Formal budgetary integration is employed as a management control device during the year for the governmental and proprietary funds.
- 6. The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles (GAAP).
- 7. The budget for the Water and Wastewater Fund is prepared on a basis of accounting other than generally accepted accounting principles, which is normal for proprietary funds. The primary differences are that bond proceeds are treated as a budget source, capital expenditures and principal payments are treated as a budget use, and accrued unpaid interest and the amortization and depreciation expense are not budgeted.
- 8. Budgeted amounts are as originally adopted or amended.
- 9. All annual appropriations lapse at the end of the year.

4. DEPOSITS AND INVESTMENTS

The District's deposits and investments consist of the following at December 31, 2021:

		Deposits	COL	OTRUST	 Total
Cash and cash equivalents	\$	3,439,199	\$	-	\$ 3,439,199
Restricted cash and cash equivalents		2,149,954	2	,120,706	4,270,660
Investments	00:-	2 = 1	16	120,099	16,120,099
Total	\$	5,589,153	\$ 18	,240,805	\$ 23,829,958
	-				

Reconciliation of cash and cash equivalents to the government-wide financial statements at December 31, 2021:

	overnmental Activities	siness-type Activities	Total
Cash and cash equivalents	\$ 3,026,618	\$ 412,581	\$ 3,439,199
Restricted cash and cash equivalents	4,270,660	-	4,270,660
Investments	4,695,828	11,424,271	 16,120,099
Total	\$ 11,993,106	\$ 11,836,852	\$ 23,829,958

Deposits — The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral

must be at least equal to 102% of the uninsured deposits.

At December 31, 2021, the carrying amount of the District's deposits, including certificates of deposits and money markets, was \$5,589,153 the bank balances were \$5,673,910. Of the total bank balance, \$250,000 was covered by FDIC insurance and \$5,423,910 falls under the provision of the Colorado Public Deposit Protection Act which is collateralized in single institution pools.

Investments — The District is authorized by Colorado statutes to invest in the following:

- Obligations of the United States and certain U.S. government agencies' securities
- · Certain international agencies' securities
- · General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Certain commercial paper
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certificates of deposits
- Certain money market fund
- · Guaranteed investment contracts

Fair Value Measurements – The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest level to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest level to unobservable inputs (level 3) as follows:

Level 1 Unadjusted quoted prices for identical instruments in active markets.

Level 2 Observable inputs other than quoted market prices.

Level 3 Valuation derived from valuation techniques in which significant inputs are unobservable

Investments that are measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

The District has the following fair value measurements as of December 31, 2021:

		Fair Value	Measuremen	nts Using	
	December 31, 2021	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 3)	Significant Unobservable Inputs	
Investments by fair level:					
Investment Pool	<u>\$18,240,805</u>				
Total investments by fair level value:	\$18,240,805	\$ -	\$	- \$	

Fixed income securities classified in Level 2 of the fair value hierarchy are valued primarily using quoted prices in inactive markets, as well as other pricing methods using observable inputs.

Colorado Government Liquid Asset Trust (COLOTRUST) is an investment vehicle established for local government entities in Colorado to pool surplus funds for investment purposes by state statutes. A twelve-member Board of Trustees, elected by the fund participants, is responsible for overseeing the management of COLOTRUST, including establishing operating standards and policies. COLOTRUST operates similarly to a money market fund and each share is equal in value to \$1.00. Designated custodial banks provide safekeeping and depository services to COLOTRUST in connection with the direct investment and withdrawal functions of COLOTRUST. All securities owned by COLOTRUST are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by COLOTRUST. Investments of COLOTRUST consist of U.S. Treasury bills, notes and note strips and repurchase agreements collateralized by U.S. Treasury notes. The District has no unfunded commitments or redemption restrictions on their investment in COLOTRUST. The separate audited financial statements of COLOTRUST are available on their website at www.colotrust.com.

Investments with maturities of less than 90 days are classified as cash and cash equivalents on the financial statements.

The District's investments are subject to interest rate risk and credit risk as described below:

Interest Rate Risk: The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Credit Risk. State law limits investments to those described above. The District does not have an investment policy that would further limit its investment choices. As of December 31, 2021 the District's ColoTrust investment is rated AAAm by Standard & Poor's.

TRIVIEW METROPOLITAN DISTRICT

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

5. ACCOUNTS RECEIVABLE

Accounts receivable consisted of the following at December 31, 2021:

GENERAL FUND	
Cash with County Treasurer	\$ 25,376
Taxes from town	482,045
Total general fund	507,421
WATER AND WASTEWATER FUND	
User fees receivable	\$ 29,261
Total water and wastewater fund	29,261
Total accounts receivables	\$ 536,682

6. INTERFUND BALANCES AND TRANSFERS

Interfund balances consisted of the following at December 31, 2020:

Receivable	Payable	Amount
Enterprise fund	General fund	\$ 6,543,843

The enterprise fund has a receivable from the general fund, the purpose of this interfund balance is to be a mechanism to track the proper allocation of payments and receipts. During the year ended December 31, 2021 the General Fund transferred \$600,000 to the Enterprise Fund.

7. PROPERTY TAX

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on January 1 and are payable in two installments due February 28 and June 15, or in one installment due April 30. El Paso County bills and collects property taxes for the District. District property tax revenues are recognized when levied to the extent that they result in current receivables. The tax rate for the year ended December 31, 2021 was 27.000 mills, 35.000 mills less a temporary mill reduction of 8.000 mills. The District's assessed valuation for 2020, for taxes collected in 2021, was \$101,330,190.

8. ESCROW FUNDS HELD

In 2021, an Escrow account was established in the District's name to accumulate funds for the study and construction of Higby Road. The balance in the account at December 31, 2021 was \$2,149,954.

10. LONG-TERM LIABILITIES

Revenue Bonds — On November 29, 2018 the District issued Water and Wastewater Enterprise Revenue and Refunding and Improvement Bonds in the amount of \$11,165,000. The bonds were issued to retire existing debt consisting of a Tax Exempt Revenue Note issued in 2014 through Northstar/Independent Bank and the refunding of the Water and Wastewater Enterprise Revenue Bonds issued in 2016. In addition, the issuance of the bonds provided \$416,000 for the purchase of water rights. The bonds are payable semiannually on June 1 and December 1 each year commencing June 1, 2019 with the final payment due December 1, 2048. The bonds are pledged by water and sewer revenue and have a variable interest rate of 4% to 5%. Annual debt service requirements to maturity for business-type activities the 2018 bonds are as follows:

December 31,	F	Principal	Interest

TRIVIEW METROPOLITAN DISTRICT

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

On November 5, 2020 the District issued Water and Wastewater Enterprise Revenue Bonds – Series 2020B in the amount of \$10,940,000. The bonds were issued to fund the purchase of water rights and land. The bonds are payable semiannually on June 1 and December 1 each year commencing December 1, 2021 with the final payment due December 1, 2050. The bonds are pledged by water and sewer revenue and have an interest rate of 4%. Annual debt service requirements to maturity for business-type activities the 2020B bonds are as follows:

December 31,	Principal	Interest			
2022	\$ -	\$	421,650		
2023	220,000		421,650		
2024	230,000		412,850

2047 - 2050	2,425,000		251,600		
Total	\$ 10,940,000	\$	7,586,700		

General Obligation Bonds — The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. Voters of the District authorized the issuance of \$50,840,800 of debt at special elections held in November 1986 and November 1987. General obligation bonds have been issued for governmental activities.

On December 15, 2016, the District issued \$46,215,000 in general obligation bonds with interest rates ranging from 4.0% to 5.0%. The District issued the bonds to advance refund \$42,740,000 of the outstanding Series 2009 general obligation bonds. The refunding was undertaken to lock in interest rates which were being remarketed weekly with the refunded bonds. The reacquisition price exceeded the net carrying amount of the old debt by \$4,526,516. This amount is netted against the new debt and amortized over the life of the refunded debt, which is shorter than the life of the new debt issued. The 2009 Series Bonds were redeemed in November 2019 when the remaining bonds became callable.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. General obligation bonds currently outstanding are as follows:

Series 2016 General Obligation Refunding Bonds bearing interest rates ranging from 4.00% to 5.00% until maturity on November 1, 2046.

\$ 43,255,000

11. NET POSITION

The District has net assets consisting of three components: net investment in capital assets; restricted; and unrestricted.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

TRIVIEW METROPOLITAN DISTRICT

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

As of December 31, 2021, the District had net investment in capital assets as follows:

Net investment in capital assets:	
Capital assets, net of depreciation	\$ 98,652,338
Capital asset related to deferred outflow	3,663,136
Long-term liabilities due within one year	(1,220,000)
Long-term liabilities due in more than one year	_(82,805,782)
Total net investment in capital assets	<u>\$_18,289,692</u>

Restricted assets are reduced by liabilities and deferred inflows of resources related to those assets. Restricted assets are assets which have restrictions placed on the use of the assets through external constraints imposed by creditors (such as through debt covenants), contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets reported:

As of December 31, 2021, the District had restricted net position as follows:

Emergency reserve (TABOR)	<u>\$ 189,000</u>
Total restricted	<u>\$ 189,000</u>

Unrestricted net position consists of the net amount of assets, deferred outflows of resources, liabilities and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position. The District utilizes unrestricted net position before using restricted net position. As of December 31, 2021, the District had unrestricted net position of \$22,623,188.

12. RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District carries commercial insurance for these risks of loss, including worker's compensation and employee health and accident insurance. Settlements have not exceeded coverage during the past three fiscal years.

13. COMMITMENTS AND CONTINGENCIES

Litigation — The District is involved in pending or threatened lawsuits and claims. The District and its legal counsel estimate that the potential claims against the District not covered by insurance or accrued for, resulting from such litigation, would not materially affect the financial statements of the District.

Tap fees — In 2007, the District settled a condemnation proceeding with a developer by agreeing to provide the developer with a credit for sewer and water tap fees in the cumulative amount of

TRIVIEW METROPOLITAN DISTRICT NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

\$436,000. As of December 31, 2020 the developer had a remaining credit for sewer and water tap fees in the amount of \$48,000.

Commitments - On January 23, 2015 the District entered into an agreement with certain developers to expand the District's infrastructure to provide water, sewer and other standard services to a new area, Phase I of Sanctuary Pointe (Phase I) within the District's boundaries. The expansion of the District's services to this new area will require additional infrastructure estimated to cost approximately \$4,850,000.

A separate escrow account was set up for a portion of the tap fees to be used to fund the additional infrastructure improvements. The District pledged to escrow \$8,000 from each single family and \$6,000 from each multi-family tap fee from Phase I. The agreement required the Developers in Phase I to pay a Water Impact Fee of \$3,000, in excess of the standard District tap fees.

The agreement committed funding of approximately \$2,400,000 from escrowed tap fees and an additional \$250,000 from the District. The additional funding of approximately \$2,200,000 will be provided by the Developers. The contribution from the Developers will be repaid by the District from additional escrowed tap fees based on the schedule above. The estimated remaining funding of \$250,000 not supplied by the tap fees was required from the District within 90 days of the of the installation of the final residential meter in Phase I. As of December 31, 2020, the District had expended \$2,650,000 for infrastructure improvements in accordance with the Agreement.

Should the Developers fail to complete the development within two years after filing their intent to proceed the District will not be obligated to reimburse the Developers for all sewer infrastructure estimated to be approximately \$1,355,000.

14. INTERGOVERNMENTAL AGREEMENTS

Intergovernmental Agreement with Forest Lakes Metropolitan District and Donala Water and Sanitation District — The District entered into an agreement dated November 11, 1999, subsequently amended on October 25, 2001, with Forest Lakes Metropolitan District and Donala Water and Sanitation District to define ownership rights in the wastewater treatment plant. Under the amended agreement, the District and Forest Lakes transferred part ownership to Donala.

In 2009 the District completed an expansion of the plant to 1.75 million gallons per day (MGD). Under the terms of the above agreements, the three Districts reallocated ownership. Ownership was also modified under a 2009 agreement between the District and Donala, with the District deeding ownership of 6.7% of the 1.75 MGD capacity to Donala. The current ownership is 37.3% owned by the District, 17.1% by Forest Lakes, and 45.6% by Donala. The plant is currently being operated by Donala and all parties are responsible for their respective share of operations and maintenance costs, based on the relative share of actual flows.

In 2009 the District deeded 6.7% of the 1.75 MGD total plant treatment capacity to Donala. The District expects the 6.7% of plant ownership to be deeded back to the District pursuant to the intergovernmental agreement to fund the completion of the wastewater treatment plant

In addition, in accordance with the November 11, 1999 agreement, an ownership interest in a 24" interceptor was transferred to the Forest Lakes Metropolitan District. As a result of the transfer, the interceptor is owned 50% by the District, 25% by Forest Lakes, and 25% by Donala.

TRIVIEW METROPOLITAN DISTRICT NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2021

Intergovernmental Agreement with Forest Lakes Metropolitan — On March 28, 2002, the District entered into an intergovernmental agreement with Forest Lakes Metropolitan District for the design, construction, operation and ownership of the Monument Creek Interceptor.

Intergovernmental Agreements with the Town of Monument — The 1987-1999 IGA with the Town of Monument is part of (appendix to) the 1987 Annexation Agreement which brought the property into the Town. This IGA sets out how the District and the Town will interact as two separate public entities. Additionally, the IGA contains various requirements for Triview Metropolitan District to follow, including the collection of certain fees and the methods for infrastructure construction as well as the maintenance of said facilities.0

15. SUBDISTRICT A AND SUBDISTRICT B

On November 3, 2020, electors approved the formation of Triview Metropolitan Subdistricts A and B for the purpose providing additional services to specific areas of the Triview Metropolitan District. As of December 31, 2021, the Districts are financially inactive.

16. AMENDMENT TO COLORADO CONSTITUTION

Colorado voters passed an amendment to the *State Constitution*, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local governments.

Fiscal year spending and revenue limits are determined based on the prior year's spending adjusted for inflation and local growth. Revenue in excess of the limit must be refunded unless the voters approve retention of such revenue.

On November 6, 2006 District residents voted to exempt the District from the revenue limits of the Amendment. This revenue change was effective from January 1, 2007 through December 31, 2017. On November 7, 2017 District residents voted to continue the exemption of the revenue limits indefinitely.

The Amendment is complex and subject to judicial interpretation. The entity believes it is in compliance with the requirements of the amendment. However, the entity has made certain interpretations of the amendment's language in order to determine its compliance.

RESOLUTION 2022 - 09

Resolution of the Triview Metropolitan District Approving Sale of Certain Real Property to Quarter Circle 2 Ranches, LLC

WHEREAS, Triview Metropolitan District ("District") is a Colorado special district, quasimunicipal corporation and political subdivision of the State of Colorado, charged with the provision of certain municipal services to landowners, commercial businesses and residential customers within the District's Service Area.

WHEREAS, pursuant to C.R.S. §§32-1-1001(1) (f), (h), (k), and (l), and 32-1-1004(3), this Board has the authority on behalf of the District to manage and control the business affairs of the District, to include the acquisition and disposition of such real property interests as benefit the District and the citizens it serves.

WHEREAS, the District has, over the past several years, pursued a policy of acquiring renewable surface water rights and water resources with the intent of ensuring the long-term viability of the District's municipal water system and supplies, including the intent to largely shift the District from reliance on non-renewable Denver Basin groundwater resources, to renewable surface water supplies. Such acquisitions include but are not limited to the purchase of the entirety of the water interests commonly known as the Arkansas Valley Irrigation Canal ("AVIC Water"); and

WHEREAS, the District acquired certain real property located in Chaffee County, Colorado (the "Subject Land") as part of its purchase of a portion of the AVIC Water from Quarter Circle 2 Ranch, LLC, a Colorado limited liability company ("QC2R") pursuant to a purchase and sale agreement (the "QC2R Agreement"); and

WHEREAS, in connection with the District's purchase of the Subject Land and AVIC Water from QC2R, the District granted to QC2R an option to repurchase the Subject Land at such time as the District has successfully obtained a decree changing the permitted use of the AVIC Water (the "Repurchase Option"); and

WHEREAS, the District is negotiating a potential annexation of a portion of the Subject Land into the Town of Buena Vista, Colorado ("Buena Vista") in connection with certain of land use approvals the District deems necessary as part of the change of use for the AVIC Water; and

WHEREAS, in exchange for QC2R's release of the portion of the Subject Land that the District desires to annex into Buena Vista from the Repurchase Option, the District is negotiating

the sale of the remainder of the Subject Land (as described on the Schedule attached to this Resolution, the "Sale Property") for a purchase price of \$300,000.00 payable under a promissory note for \$150,000.00 (secured by a deed of trust against the Sale Property) and the remainder as a credit against the District's post-closing obligations to CQ2R under the QC2R Agreement (the "Proposed Transaction"); and

WHEREAS, the District did post advance public notice of its discussion and consideration of contracting with QC2R for Proposed Transaction during public session of the District's monthly Board of Director's meeting held on August 18, 2022, and the Board did discuss and consider the Proposed Transaction during such meeting.

NOW, THEREFORE, pursuant to the District's authority and the power under C.R.S. §§32-1-1001 and 32-1-1004, the following resolution is made in regard to the sale of the Sale Property authorizing the District Manager to proceed with the negotiation and execution of contracts and associated documents necessary to document and effect the Proposed Transaction:

Upon unanimous affirmative vote of the District's Board of Director's during public session of the Board meeting held August 18, 2022, it is so resolved that James McGrady, as the District Manager, is authorized to negotiate execute and sign all documents necessary to facilitate the Proposed Transaction.

Dated this 18th day of August 2022.

Mark Melville, President
Triview Metropolitan District

Marco Fiorito, Vice President Triview Metropolitan District

The Sewer Equipment Company of America 900-ECO puts safety, simplicity and reliability back into your work day.

It all starts with our patented hydro-drive system that drives the water pump, blower, and auxiliary hydraulic systems without the need for a transfer case or an auxiliary engine. When you are ready to work, simply put the truck in neutral and apply the parking brake. That's it! You are ready to step out of the cab. This is the only single engine truck on the market that truly operates in neutral, affording your operators a level of safety unmatched by any other truck in its category.

The operator interface at the hose reel is as easy as 1-2-3-4. Working from top to bottom, the operator simply clicks the following switches on the hose reel to go to work:

- 1. Work Mode On
- 2. Water Pump On
- 3. Blower On
- 4. Throttle On

That's it! A two-stage throttle assures that your truck's emission system stays healthy, and simple hand dials allow the operator to independently vary water pump and blower output from 0% to 100%. Traditional hydraulic levers for reel-in/reel-out and a simple joystick for boom functions make for intuitive operation and control refinement that is unmatched in the industry.

The 900-ECO further sets itself apart with its lack of CAN-bus/computerized communication, touch screens, and ECU's 'Electronic Control Units'). Sewer Equipment's traditional 12-volt control architecture eliminates integration with the __nassis computer and the problems it presents, greatly eases operator training, and allows trouble shooting with readily available tools such as test lights and multi-meters rather than proprietary computer programs.
